

Point 1 It is rare place in the world where you can see more than 10,000 cranes every year close to human residents.

Point 2 In 2021, "Izumi Crane Wintering Area" registered as 53rd Ramsar wetland in Japan.

Point 3 Izumi is a bird paradise. You can see about 300 species of wild birds, which is almost half of 600 species you can see in Japan.
